## LEGISLATURE IN SESSION.

THE HOUSE OF REPRESENTA-  
TIVES TAKES A REST.Senator McCandless Propounds More  
Questions for the Minister of  
Finance—Hilo Library Bill.

TWENTY-SIXTH DAY, MARCH 21TH.

## THE SENATE.

After the opening preliminaries  
Senator Lyman from the Com-  
mittee on Public Lands reported  
on the petition of residents of  
Kauai for an appropriation of  
\$5000 for a new road to Koloa.  
The committee recommended that  
the road be built and that \$4000  
be appropriated for the purpose.  
Report laid on the table to be  
taken up with any new appropri-  
ation bills.

Senator Brown from the Judi-  
ciary Committee reported on the  
petition of thirty-three lawyers  
and others for an amendment to  
the law on private ways and  
water rights. The committee  
favors the change petitioned  
for and submits a bill contain-  
ing the desired amend-  
ment. The bill gives the Circuit  
Judges in chambers concurrent  
rights with District Courts in  
hearing and determining suits of  
this class, with the object of hav-  
ing the Circuit Judges hear the  
more important cases. Referred  
back to the committee for transla-  
tion.

Senator McCandless submitted  
the following interrogatory to the  
Minister of Finance: "Please  
have a statement made for the use  
of the Committee on the Tax Law,  
showing the taxes paid in the Re-  
public of Hawaii by all business  
firms or business enterprises,  
other than corporations, whether  
conducted as co-partnerships or  
by individuals. Said statement to  
have all such business firms or  
enterprises properly classified un-  
der the headings: "Agricultural,"  
"Mercantile," "Mechanical,"  
"Grazing," "Professional" or un-  
der any other appropriate head-  
ing."

Minister Damon said it would  
be necessary to communicate with  
all the assessors on the other is-  
lands to procure the desired in-  
formation and that it would neces-  
sarily take some time to compile  
the tables asked.

Senator Lyman introduced his  
bill for the benefit of the Hilo  
Library and Reading Room As-  
sociation. By the terms of the  
bill the Minister of the Interior  
is authorized and directed to re-  
serve and set apart for the use of  
the association all of that certain  
lot or parcel of land situate on  
the northwest side of Waianae-  
ue street, 50x100 feet, adjoining  
the lot owned by H. Porter, to-  
gether with government water,  
free of charge. The bill also  
exempts all property of the asso-  
ciation from taxes, as long as the  
library and reading room are  
open to the general public.

The bill was referred to the  
Printing Committee.  
At 10:25 the Senate adjourned  
till Monday.

## NOTES OF BOTH HOUSES.

Some miscreant has knocked a  
hole in two panels of the new  
fence which encloses the Senate  
chamber.

Senator Waterhouse was the  
only absentee at the opening of  
the Senate this morning, but he  
came in time to vote on the  
motion to adjourn.

It is understood that the revi-  
sion of the Penal Code is unsatis-  
factory in its present form and  
that it will go over for the next  
Legislature for adoption. If Sen-  
ator Holstein's bill to revise the  
Civil Code passes, this will bring  
out a new civil and criminal code  
at the same time which is most  
desirable.

## THE GREATEST WEDDING.

Over Ten Thousand Couples United at  
the Same Time.

The largest and most remark-  
able wedding since the world be-  
gan, says a writer in the Cincin-  
nati Tribune, took place at Susa.  
When the Great Alexander had  
conquered Persia, wishing to  
unite the victors and vanquished  
by the strongest ties possible, he  
decreed a wedding festival. Now  
guess how many people he order-  
ed to be married. You could never  
do it.

Well, Alexander himself was to  
marry Statira, the daughter of  
Darius; 100 of his chief officers  
were to be united to ladies from  
the noblest Persian and Median  
families, and 10,000 of his Greek  
soldiers were to marry 10,000  
Asiatic women—20,202 people  
married at once.

I don't see how they managed to  
get up a feast for so many, but they  
did, and for a vast multitude of  
guests besides. They had the  
most splendid arrangements. On  
a plain, near the city, a vast pavil-  
ion was erected on pillars, sixty  
feet high. It was hung and  
spread with the richest tissues,  
while the gold and precious stones  
which ornamented it would have  
made your eyes blink. Adjoining  
this building were 100 gorgeous  
chambers for the hundred bride-  
grooms while, for the remaining  
10,000 an outer court was inclosed  
and hung with costly tapestry;  
and tables were spread outside for  
the multitude.

A separate seat was assigned  
each pair, and all were arranged  
in a semi-circle on either hand of  
the royal throne. Each bride-  
groom had received a golden ves-  
sel for his libation, and when the  
last of these had been announced  
by trumpets to the multitudes  
without, the brides entered the  
banquet hall and took their  
places.

And now, don't you think each  
bridegroom stood up separately  
and vowed, "With this ring I now  
thee wed," and so on. No, the  
ceremony was very simple; the  
King gave his hand to Statira and  
kissed her as his wife, and the  
other bridegrooms followed his  
example. That was the way.  
Then came the festival, lasting  
five days, with music and feasts of  
jugglery and play acting and all  
kinds of delightful games.

## AN EMBALMED BIRD.

What the Cathode Ray Disclosed in  
Mummy Wrappings.

Harold Frederic writes the fol-  
lowing in his London letter to the  
New York Times:

Although it is evident that Amer-  
ica is fully abreast of Europe in  
expanding and developing Roent-  
gen's discovery some quaint inci-  
dents of the process here may not  
be duplicated on the other side.  
For instance, the Vienna Museum  
for some time has possessed as its  
chief treasure an Egyptian mum-  
my which is swathed to resemble  
a human being, but bearing an  
inscription which suggested it to  
be an Ibis instead. The thing  
was too rare and precious to run  
the risk of unwinding its bandages  
to solve this paradox, but the shadow  
photograph now plainly re-  
veals the skeleton of a large bird.

Professor Bergmann of Berlin  
utilized the discovery the other  
day for a surgical operation, but  
at the same time made a speech to  
the university class, warning them  
of the possible dangers involved  
in this weird multiplication of  
facilities for diagnosis. He foresees  
that, now that the position of the  
human form, may be traced with  
ease, everybody who had been  
carrying bullets, needles and shot  
for years without harm to himself  
will be possessed with the passion  
to have them located and dug out,  
and against this he protests for-  
vently.

He says he made his special  
reputation in surgery in the Russo-  
Turkish war by never extract-  
ing a bullet unnecessarily more

than by anything else, and even  
in time of peace, where antiseptic  
aids are at their best, he earnestly  
deprecates all but strictly essential  
operations of this nature.

## Never Leaves British Soil.

A Waldorf Hotel group were  
discussing the extent of British  
territory a few evenings ago when  
an experienced traveler made a  
remark that set others to looking  
up their atlases at the first oppor-  
tunity. He had said that a traveler  
can leave London and go around  
the world and never set foot on  
other than British soil.

Asked to outline the itinerary  
he answered: "From England to  
Hawaii; to Victoria over the  
Canadian Pacific; across the Paci-  
fic to Hongkong, stepping there  
on the British reservation; thence  
to Singapore, Penang, the island  
of Mauritius, Cape Town, South  
Africa; St. Helena and home to  
England; or from Penang you  
may go to Ceylon, thence by way  
of Bombay, Aden, Perim, Malta,  
Gibraltar and thence home."

on Monday next, sell at auction a  
large and valuable stock of dry  
goods, tailors' goods, clothing,  
liquors and cigars, saddlery,

terest to the bargain buyers of  
Honolulu, and a chance seldom  
offered to secure first-class goods  
at low prices. The list embraces  
hundreds of useful and necessary  
articles, further particulars re-  
lative to which will be published  
later. Don't forget the date, Mon-  
day next at 10 a. m., at H. W.  
Schmidt & Sons' store on Fort  
street, between Merchant and  
Queen.

## In Washington.

Visitor—"What would be a  
good time to see the Senate in  
session?"

Resident—"Well, you can take  
your choice. On Monday and  
Thursday they attend to Armenia;  
Tuesday, Venezuela; Wednesday,  
Cuba; Friday, the Transvaal Re-  
public; Saturday—if they can  
spare the time—the United States."  
—Puck.

The Hawaiian question and the  
Pacific cable are probably relegat-  
ed to recess.

## The Opium Cases.

The trial of Hoshina and Iwata  
for selling opium ended in Judge  
de la Vergne's Court yesterday  
afternoon. Both defendants were  
found guilty. Iwata was sen-  
tenced to pay a fine of \$500 and  
costs and one month's imprison-  
ment at hard labor. Hoshina was  
given a fine of \$500 and six  
months' imprisonment at hard  
labor. The case was appealed to  
the higher court.

## W. G. IRWIN ARRESTED.

Brought to Court Under Bench War-  
rant as a Witness.

Rudolph Spreckels vs. W. M.  
Giffard, secretary of Pauhanu  
Plantation Company, was before  
Judge Perry this morning. There  
was a hot time between Mr. Kin-  
ney of counsel for defendant, and  
Mr. Hartwell of counsel for the  
plaintiff, over a subpoena issued  
by the clerk for W. G. Irwin, pre-  
sident of the company named.  
Mr. Kinney notified Mr. Irwin that  
the subpoena was improperly is-  
sued and he need not obey it.

Mr. Hartwell moved for a bench  
warrant to bring Mr. Irwin into  
court, which was granted by  
Judge Perry. The warrant was  
served on Mr. Irwin at his office  
by Marshal Brown, who escorted  
the witness into court. Mr. Kin-  
ney asked for time to consider  
what next to do in the matter,  
and, after about ten minutes' de-  
lay and a brief consultation with  
Mr. Irwin, he announced to the  
Court that he was ready to have  
the hearing proceed.

Mr. Allen, of Allen & Lewis,  
brokers, of San Francisco and  
Portland, was on the stand  
for the plaintiff. He pro-  
duced 500 shares of Pauhanu  
stock, in addition to 500 pro-  
duced before. After resumption  
of business the only ripple in the  
proceedings was caused by Mr.  
Kinney's objections to questions.

Outside of the courtroom, while  
the return upon the bench war-  
rant was awaited, Mr. Kinney said  
that Mr. Stanley, of counsel for  
the plaintiff, had gone past him to  
procure a subpoena for Mr. Irwin.  
He was not a little excited over  
the matter.

## At Emma Square.

The Hawaiian band will give  
the usual concert at Emma Square  
this afternoon immediately after  
the departure of the Australia. The  
following program has been ar-  
ranged:

1 March—"Vienna".....Konsack  
2 Overture—Eliza and Claudio.....Mercadante  
3 Finale—Carmen.....Bizet  
4 Reminiscences of Auber.....Godfrey  
5 Waltz—Comme une fleur.....Coste  
6 Galop—Light as a Feather.....Nicola  
Hawaii Ponoi.

## Building Lots.

The building lots to be sold at  
auction by Jas. F. Morgan next  
Saturday are situated in the  
choicest neighborhood at Makiki.  
Five or six new modern residences  
will be erected in the immediate  
vicinity within the coming year,  
and the many fine houses being  
built at the Panahou tract just  
beyond these lots ensure a rapid  
rise in value!

Thomas Lindsay leaves by the  
Australia. Be gude tae yourself,

A Chinese lady took the oath  
of allegiance this morning. She  
teaches a school of Chinese pu-  
pils on Smith street.

You can't do better than to call  
on King Bros., when you want  
anything in the picture or art  
goods line. Don't forget the  
number—Hotel street.

Rev. Mr. Romig had a large  
audience last night. After his  
regular sermon he undertook to  
prove, in contradiction of an al-  
leged statement by Rev. Mr. Peck,  
that the Methodist church regard-  
ed baptism as an essential to sal-  
vation, while also recognizing  
immersion as one of the modes.

The Prussian general staff are  
enthusiastic over Count Zeppelin's  
steerable balloon, which can rise  
1200 yards, travel eleven miles an  
hour, carry two tons, stay up fully  
a week and ascend or descend with-  
out throwing ballast or losing  
gas. It utilizes aluminum in the  
motor and steering gear, but the  
principal novelty is a secret pre-  
paration or sizing making silk  
entirely gas tight. The cost of  
one will be \$75,000, but its value  
in time of war as a lookout over a  
vast range, either by sea or land,  
will be incalculable.
